EXPERIENCE

International Initiative for Impact Evaluation (3ie)

Washington, D.C.

Intern

June 2025 - August 2025

- Conducted in-depth research on foundations supporting migration-related initiatives, mapping 50+ potential donors and prioritizing five high-value prospects using a custom evaluation framework
- Developed an evidence-based fundraising strategy by analyzing international development funders and presenting actionable recommendations to leadership
- Led outreach to organizations with AI-powered chatbots, benchmarking capabilities and criteria to evaluate vendors
- Brokered a meeting between an AI chatbot CEO and organizational leadership to advance partnership discussions
- Designed a screening process to identify high-impact chatbot solutions aligned with program goals
- Identified and assessed major conferences across the MENA and East Asia regions to expand strategic partnerships and business development opportunities

Mission Analytics Group, Inc.

San Francisco, CA

Quantitative Research Analyst

April 2022 - May 2024

- Generated data on individuals with intellectual and developmental disabilities (IDDs) and special incident reports to monitor special incidents (e.g., missing person incidents, hospitalizations, etc.)
- Employed SQL queries to navigate and extract relevant insights from large-scale healthcare datasets, including filtering data by regional centers, incident type, purchase of service (POS) requests, etc.
- Formatted dashboards to monitor 21 California regional centers using Power BI to organize incidence reports made by facilities in customer care and satisfaction through quantitative analysis
- Spearheaded the presentation of special incident reports to the Department of Developmental Services on a monthly basis. Presentations included data breakdown by incident types, regional centers, and significant spikes in incidents
- Oversaw projects with the California Department of Managed Healthcare by tracking errors committed by over 40 statewide health plans to improve accessibility to healthcare for marginalized communities residing in California
- Monitored the spread of COVID and vaccination rates with the Department of Developmental Services by using Stata and Power BI to prioritize the health of individuals with IDDs

Muslim Public Affairs Council (MPAC)

Washington, D.C.

Intern

June 2021 - August 2021

- Conducted qualitative research and wrote two policy memos on issues pertaining to criminal justice reform and LGBTQ+ rights within the Muslim-American community
- Authored publications on foreign policy matters across the Middle East and North Africa

Public Policy International Affairs Junior Summer Institute

University of California, Berkeley

Law Fellow

June 2020 - August 2020

- Analyzed quantitative data using R and Stata to analyze policy trends pertaining to rehabilitative measures for individuals suffering from substance use disorders and equitable emergency funding for households during climate disasters
- Drafted a restorative justice-centered policy memo on combating substance use disorders by advocating for the decriminalization of narcotic substances and providing resources to impacted individuals

SKILLS

Technical R, Stata, SQL, Python (pandas, numpy), ArcGIS, Power BI, IPUMS, Excel (advanced), GitHub
Languages Arabic (fluent), English (fluent), Spanish (basic conversational)
