EDUCATION

University of California, Berkeley

Berkeley, CA

Master of Public Policy, Cumulative GPA: 3.9

May 2026

Honors: Graduate Certificate in Applied Data Science, Graduate Certificate in Technology Policy

University of California, Berkeley

Berkeley, CA

Bachelor of Arts in Economics, Cumulative GPA: 3.89

December 2021

Honors: Phi Beta Kappa, Truman Finalist in the state of California, PPIA JSI Law Fellow

EXPERIENCE

Oakland Department of Transportation

Oakland, CA

Executive Management Intern

June 2026 - Ongoing

- Developed an interactive Power BI dashboard to visualize capital project metrics, including geographic, cost, and priority-based analyses with dynamic filtering for stakeholder decision-making
- Created and maintained an interactive ArcGIS web map, integrating layers such as high-priority neighborhoods, high-injury networks, speed cameras, council districts, road classifications, and traffic collision data, with editable layers
- Automated the consolidation of data from nine Excel files into a master dataset using Python, improving data processing efficiency and supporting large-scale analysis
- Performed quality assurance (QA/QC) on a Speed Camera Pilot Program report by validating calculations, identifying data discrepancies, and improving the accuracy and presentation of analytical outputs
- Developed summary tables and statistical analyses to evaluate Speed Camera Program outcomes, including repeat offender trends and citation patterns, to support program evaluation and policy decisions.

International Initiative for Impact Evaluation (3ie)

Washington, D.C.

Intern

June 2025 - August 2025

- Conducted in-depth research on foundations supporting migration-related initiatives, mapping 50+ potential donors and prioritizing five high-value prospects using a custom evaluation framework
- Developed an evidence-based fundraising strategy by analyzing international development funders and presenting actionable recommendations to leadership
- Led outreach to organizations with AI-powered chatbots, benchmarking capabilities and criteria to evaluate vendors
- Brokered a meeting between an AI chatbot CEO and organizational leadership to advance partnership discussions
- Designed a screening process to identify high-impact chatbot solutions aligned with program goals
- Identified and assessed major conferences across the MENA and East Asia regions to expand strategic partnerships and business development opportunities

Mission Analytics Group, Inc.

San Francisco, CA

Quantitative Research Analyst

April 2022 - May 2024

- Generated data on individuals with intellectual and developmental disabilities (IDDs) and special incident reports to monitor special incidents (e.g., missing person incidents, hospitalizations, etc.)
- Employed SQL queries to navigate and extract relevant insights from large-scale healthcare datasets, including filtering data by regional centers, incident type, purchase of service (POS) requests, etc.
- Formatted dashboards to monitor 21 California regional centers using Power BI to organize incidence reports made by facilities in customer care and satisfaction through quantitative analysis
- Spearheaded the presentation of special incident reports to the Department of Developmental Services on a monthly basis. Presentations included data breakdown by incident types, regional centers, and significant spikes in incidents
- Oversaw projects with the California Department of Managed Healthcare by tracking errors committed by over 40 statewide health plans to improve accessibility to healthcare for marginalized communities residing in California
- Monitored the spread of COVID and vaccination rates with the Department of Developmental Services by using Stata and Power BI to prioritize the health of individuals with IDD

SKILLS

Technical Languages R, Stata, SQL, Python (pandas, numpy), ArcGIS, Power BI, IPUMS, Excel (advanced), GitHub
Arabic (fluent), English (fluent), Spanish (basic conversational)
